

12v High-efficiency Photography Flash

All-in-one adjustable flash power driver board

Sales: www.XENONFLASHTUBES.com INFO@XENONFLASHTUBES.com

ASEMBLED MODULE *

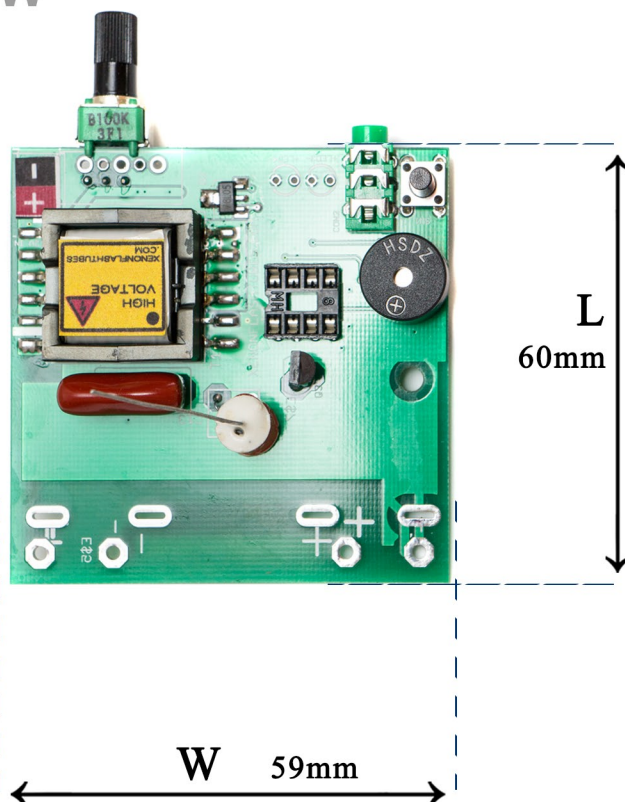

MODULE FEATURES

- ▶ Portable 12v Power source
- ▶ Continuous Power adjustment knob
- ▶ High efficiency, low power loss
- ▶ Fast Recycling (charging)
- ▶ 3.5mm Sync input and test button
- ▶ Audible beep notification when ready
- ▶ READY and CHARGING visual LEDs
- ▶ Compact size factor, SMT Technology
- ▶ Fine tuning of output voltage
- ▶ Excellent power consistency
- ▶ Charges 500uF to 300v in just 0.6s !

SPECIFICATIONS

Input Voltage	12v - 15v
Sync port voltage	5v
Output capacitor voltage	0 - 800v
Trigger coil output	~6Kv
Current draw max.	4.5A @12v
Power efficiency	87%~89%
PCB dimensions	60mmX59mm

CUSTOM ORDER

- 2x1000uF/360v PHOTO capacitors = 130 WS
- 2x1500uF/360v PHOTO capacitors = 200 WS
- 2x2000uF/360v PHOTO capacitors = 260 WS

Mains 110v/220v to 12v adapters are available

*Capacitors are sold separately
